

Troubleshooting Guide

Common Issues and Solutions

Issue 1: Cannot Login

Solution: Reset your password at app.example.com/forgot-password

Issue 2: API returning 401

Solution: Check your API key in Settings > API Keys

Issue 3: Data not syncing

Solution: Disconnect and reconnect your integration

Issue 4: Export failing

Solution: Reduce dataset size or use async export for large files

Issue 5: Webhook not firing

Solution: Verify endpoint returns HTTP 200 within 10 seconds
